The Orton-Gillingham Approach To Teaching Dyslexic Children

A 49 Hour Introductory Course

(With Optional Applied Practice & Mentoring)

Summer 2015

Riverside
SCHOOL
Stronger roots. Brighter futures.

Course Description

This 49 hour Orton-Gillingham introductory course provides participants with instruction in the basics of the Orton-Gillingham Approach. The Orton-Gillingham Approach is a systematic, multisensory and diagnostic/prescriptive approach to the teaching of language skills including reading, spelling and handwriting. The course includes the characteristics and needs of the dyslexic learner, instruction in the structure of the English language, and instruction in designing and implementing lessons. It is highly effective for teaching students with dyslexia as well as other individuals who need explicit instruction in the basic skills of language. Presentations will be through lectures, discussions, demonstrations, videos, hands-on exercises, multi-sensory techniques and appropriate materials. Completion of this course provides Orton-Gillingham training. Information will be provided regarding Academy Certification.

Who Should Attend

This course is for people who are interested in learning about a highly structured, sequential, multi-sensory approach for teaching students with learning disabilities. No prior teaching experience is required; however, all participants must have a college degree.

Course Instructors

This course is overseen by a Fellow in the Academy of Orton-Gillingham Practitioners and Educators. All instructors are members of the Academy. Riverside School provides the only Academy accredited Orton-Gillingham Training course in the Commonwealth of Virginia.
